Lamellas

Durable polyamide lamellas, strung on steel cables in a PVC sheath

Mesh

Mesh with strong weave, resistant to weather conditions and UV rays.

Webbings

Strong webbing made of polypropylene fibers with an evenly and

Choose the color of the mat and rubber

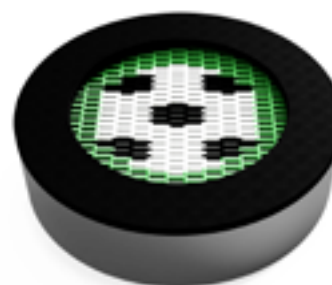

Choose the color of your trampoline. You can create a multi-colored, modular trampoline or match the colors to the decor of the space. We present a palette the most frequently chosen colors:

At the customer's special request, we can make elements in any color

Lamellas – the freedom to create mats with different patterns

At the client's special request, we can combine the lamellas into a multicolored pattern. Your imagination is the only limit! We present some of the possible implementations:

Lamellas – 8 colors to choose from

White

Yellow

Red

Orange

Gray

Green

Blue

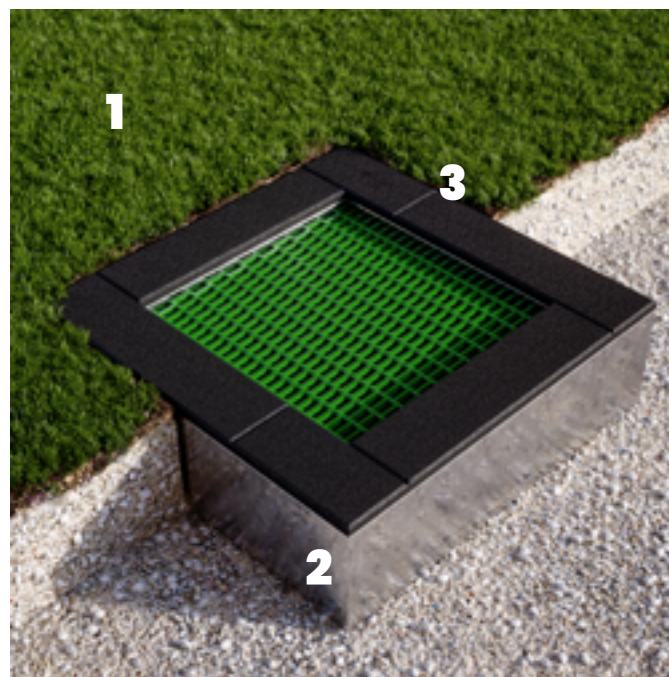

Black

Instructions and tips

What to pay attention to during assembly?

1. Choosing a place

We recommend that there should be a safe surface around the trampoline.

2. Ground hole

Make a 40 cm deep earth OR concrete hole. The opening should be larger than the dimensions of the trampoline by 30-40 mm per side.

3. Assembly

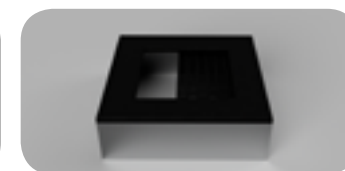

Before inserting the trampoline, level the ground.

The trampoline is directly mounted on the hardened ground, which needs to be permeable to water.

Cleaning

One-piece, non-opening

To clean the trampoline you need to remove part of the jumping mat. Removing the mat is simple and involves sliding the rope shackles from the springs located along the perimeter of the body of the trampoline.

Two-piece, opening

Once you open the cover of the trampoline you can clean it inside.

1/4 circle trampolines

Lenght	150 cm
Width	150 cm
Height	40 cm
Foundation depth	40 cm
The dimension of the mat of the jump	100 x 100 cm
Device use zone	450 x 450 cm
Mat deflection:	do 25 cm (+/- 3cm) cm

Color and type of mat:

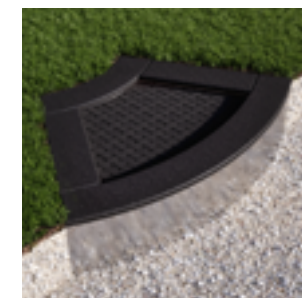

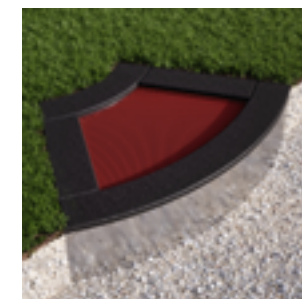

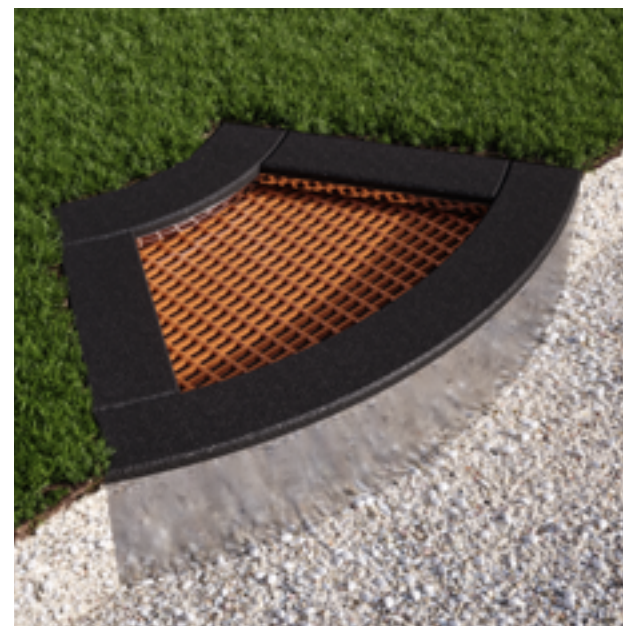

p. 4, 5

About the product

Each type of trampoline is a guarantee of improvement, among others motor coordination, because we activate many parts of the body by jumping. Several dozen minutes are enough for this physical activity to become a must-have every day, both among young and old people.

60° trampolines

Lenght	155 cm
Width	160 cm
Height	40 cm
Foundation depth	40 cm
The dimension of the mat of the jump	105 x 110 cm
Device use zone	450 x 450 cm
Mat deflection:	do 25 cm (+/- 3cm) cm

Color and type of mat:

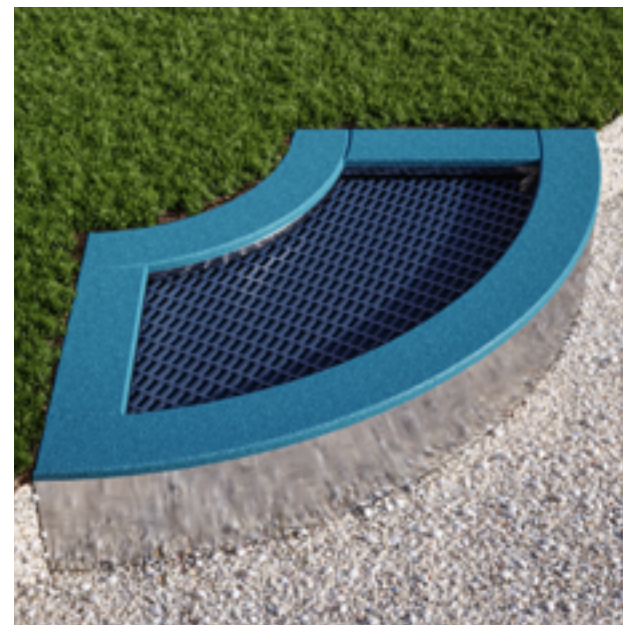

p. 4, 5

About the product

The 60-degree trampoline is a great fun option, especially for the youngest. In addition, it can be used as a single element to build entire trampoline combinations over a larger area.

90 degree trampolines

Lenght	180 cm
Width	185 cm
Height	40 cm
Foundation depth	40 cm
The dimension of the mat of the jump	130 x 135 cm
Device use zone	450 x 450 cm
Mat deflection:	do 25 cm (+/- 3cm) cm

Color and type of mat:

p. 4, 5

About the product

A 90-degree trampoline is a great idea for children and teenagers. In addition, each element of this type can be combined with each other to create a real combination, and therefore a much larger area for jumping.

Trampolines for the disabled

Lenght	125/150/175 cm
Width	200/250/300 cm
Height	40 cm
Foundation depth	40 cm
The dimension of the mat of the jump	75x150/75x200/100x150/100x200 /125x250 cm
Device use zone	450 x 450 cm
Mat deflection:	do 25 cm (+/- 3cm) cm

Color and type of mat:

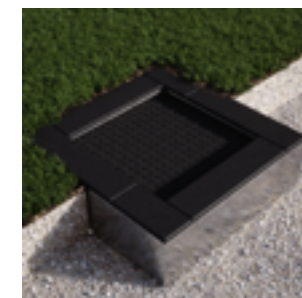

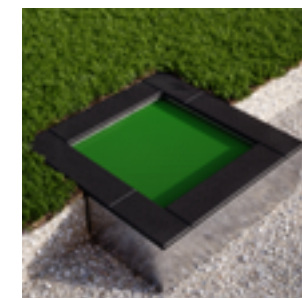

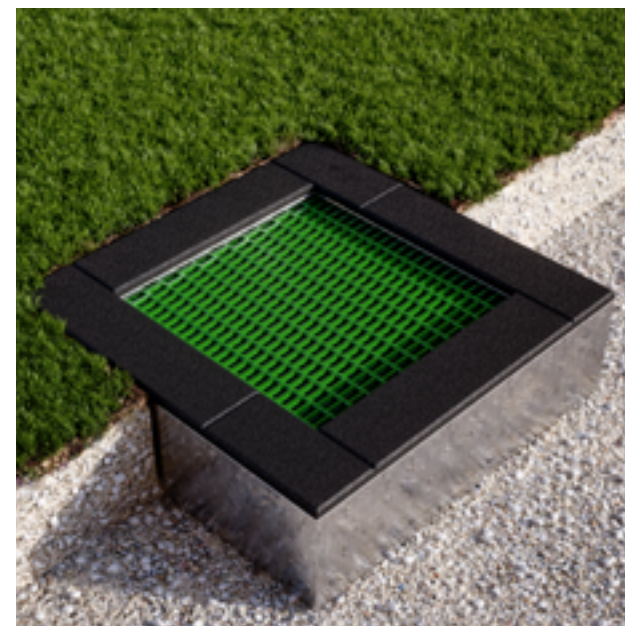

p. 4, 5

About the product

Great fun does not have to avoid people with disabilities! There are special trampolines that are adapted for those who use wheelchairs. Rectangular surfaces are adapted to intensive use and trampoline jumping by disabled people. It is simply necessary to assist another person. Trampolines for the disabled can also be combined, creating, for example, a crater field. The fun can therefore take place not only alone, but also by a larger group of children, adolescents or adults, while at the same time integrating the whole group.

Square trampolines

Lenght	130/150/175/200 cm
Width	130/150/175/200/250 cm
Height	40 cm
Foundation depth	40 cm
The dimension of the mat of the jump	80x80/100x100/125x125/150x150/200x200 cm
Device use zone	450 x 450 cm
Mat deflection:	do 25 cm (+/- 3cm) cm

Color and type of mat:

p. 4, 5

About the product

Square trampolines are a great opportunity to play for both children and adults. These types of sets can also be combined with each other, creating a real jumping field, called by some people, e.g. craters, at the same time increasing the number of participants in the game at one time.

Round trampolines

Lenght	130/150/175/200 cm
Width	130/150/175/200/250 cm
Height	40 cm
Foundation depth	40 cm
The dimension of the mat of the jump	80/100/125/150/200 cm
Device use zone	450 x 450 cm
Mat deflection:	do 25 cm (+/- 3cm) cm

Color and type of mat:

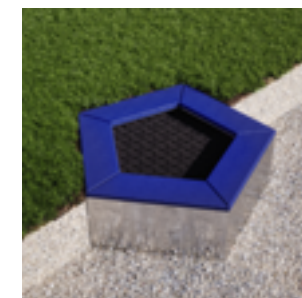

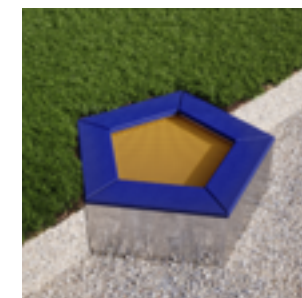

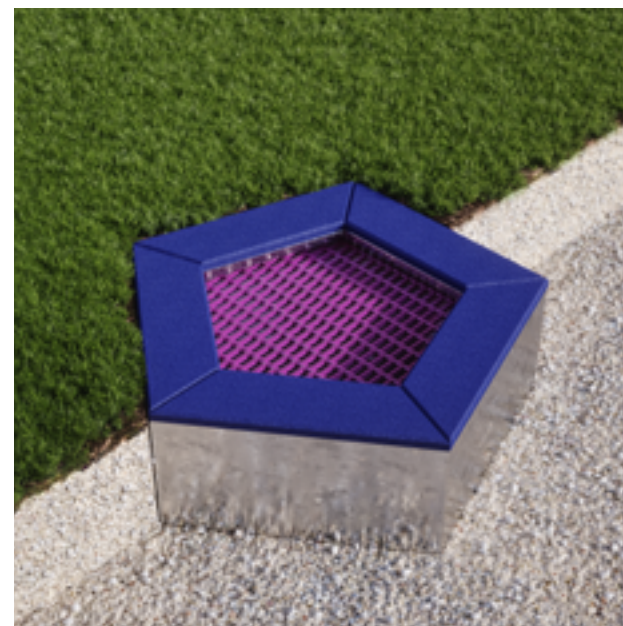

p. 4, 5

About the product

Round trampolines come in different sizes and, as a rule and safety, are only suitable for play by one person. However, it is worth noting that the trampolines are not only used by children. Adults can also join in the fun outdoors!

Pentagonal trampolines

Lenght	170 cm
Width	147 cm
Height	40 cm
Foundation depth	40 cm
The dimension of the mat of the jump	120 x 97 cm
Device use zone	450 x 450 cm
Mat deflection:	do 25 cm (+/- 3cm) cm

Color and type of mat:

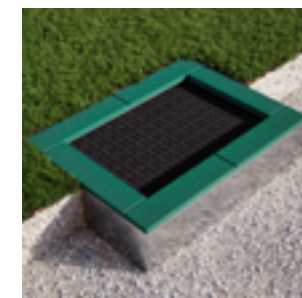

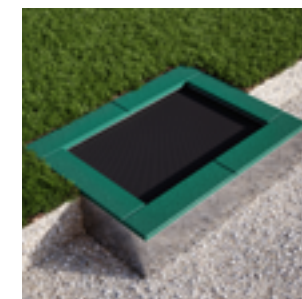

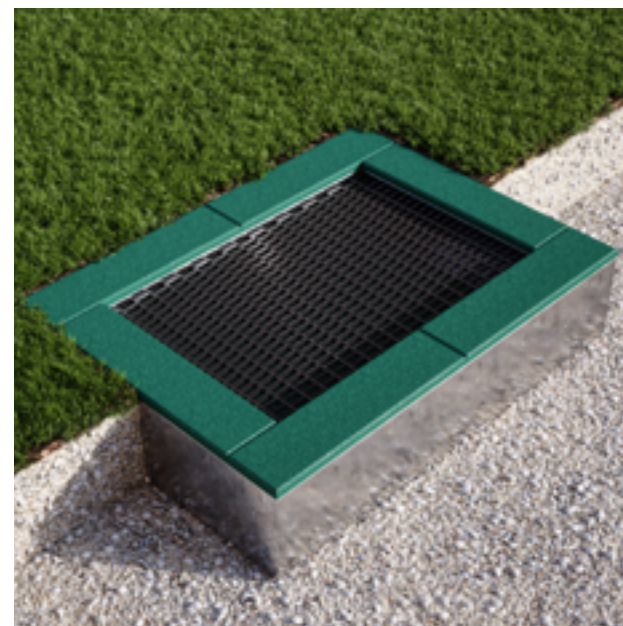

p. 4, 5

About the product

The pentagonal ground trampoline is an excellent fun option for people of all ages. This type of trampoline can be an one of the element of bigger trampolines combination. This module can be used, for example, on trampoline parks.

Rectangular trampolines

Lenght	125/150/175 cm
Width	200/250/300 cm
Height	40 cm
Foundation depth	40 cm
The dimension of the mat of the jump	75x150/75x200/100x150/100x200 /125x250 cm
Device use zone	450 x 450 cm
Mat deflection:	do 25 cm (+/- 3cm) cm

Color and type of mat:

p. 4, 5

About the product

The popularity of round trampolines resulted mainly from the fact that companies starting on the market relied on the basic product, with a view to gradual development of the offer. Along with the growing interest in jumping, for example in the garden, the creativity of customers began to move in other directions as well.

Nest swings

The decision about each toy depends on several factors – from the fun itself, through the possibilities and functionalities, to durability, e.g. during various weather conditions. One of the hits among children is the swing with the friendly name „Nest swings”.

The very shape of the swing can definitely resemble a stork's nest or other types of birds. Importantly, it is characterized by very high resistance to rain or long-term sunlight (UV rays).

Nest swing with lamellas

Seat diameter	100/120 cm
Fastening	Reinforced ropes; diameter: 16 mm
Shackle material	Stainless steel
Ring material	Aluminium

About the product

The „Stork’s nest” swing is a very good alternative to ordinary swings.

Our offer includes swings with lamellas.

The „Stork’s nest” swing makes the time spent on it pleasant, it can be used by more than one person at a time. A great element for a home garden!

Nest swing with stripes

Seat diameter	100/120 cm
Fastening	Reinforced ropes; diameter: 16 mm
Shackle material	Stainless steel
Ring material	Aluminium

About the product

A stork's nest is a kind of a swing that is a great alternative to those devices that we remember from our childhood. The current designs make the fun even more fun!

Our offer includes swing with belts.

Installing such a swing guarantees fun for a long time, especially since it can be used by more than one child.

Nest swing with ropes

Seat diameter	100/120 cm
Fastening	Reinforced ropes; diameter: 16 mm
Shackle material	Stainless steel
Ring material	Aluminium

About the product

The „Stork’s nest” swing is a great choice not only for fun, but also to improve your motor coordination.

One of the three types of such devices in our offer is a rope swing. Fully safe, providing many hours of fun, perfect for your garden or playground.
